

HAVE YOU RECEIVED A CANCER DIAGNOSIS? WE NEED YOUR INPUT AND OPINIONS!

Researchers at the George Washington University (GW) Cancer Center are looking for people to participate in a focus group discussion.

Do you meet all of the following criteria?

- Age 18 or older
- Received care for a cancer diagnosis in the United States
- Identify as female, transgender or genderqueer
- Identify as being from a minority group (race/ethnicity, religion, sexual orientation)

Call us at (202) 823-3376, Monday-Saturday between 9 am and 9 pm ET if you would like to participate or learn more!

What to expect:

When you call, you will be asked questions to see if you are eligible and available to participate in the focus group. This will take about 10 minutes. If you are eligible, you will be asked if you want to participate in a 90 minute focus group about your cancer care experience and ideas for improvement. You will receive a \$50 Amazon gift card if you complete the focus group.

Why are we doing focus groups?

Sometimes, patients have different experiences trying to get cancer care because of their race, religion, sexual orientation, gender identity or other aspects of who they are. Researchers at the GW Cancer Center want to find ways to help cancer doctors, nurses, navigators, caregivers and patients communicate well so that all patients have good care.

Participation is optional. You do not have to participate if you don't want to. Your cancer care will not be affected in any way.
